

# OUR YAHTZEE GAME

-a java project-

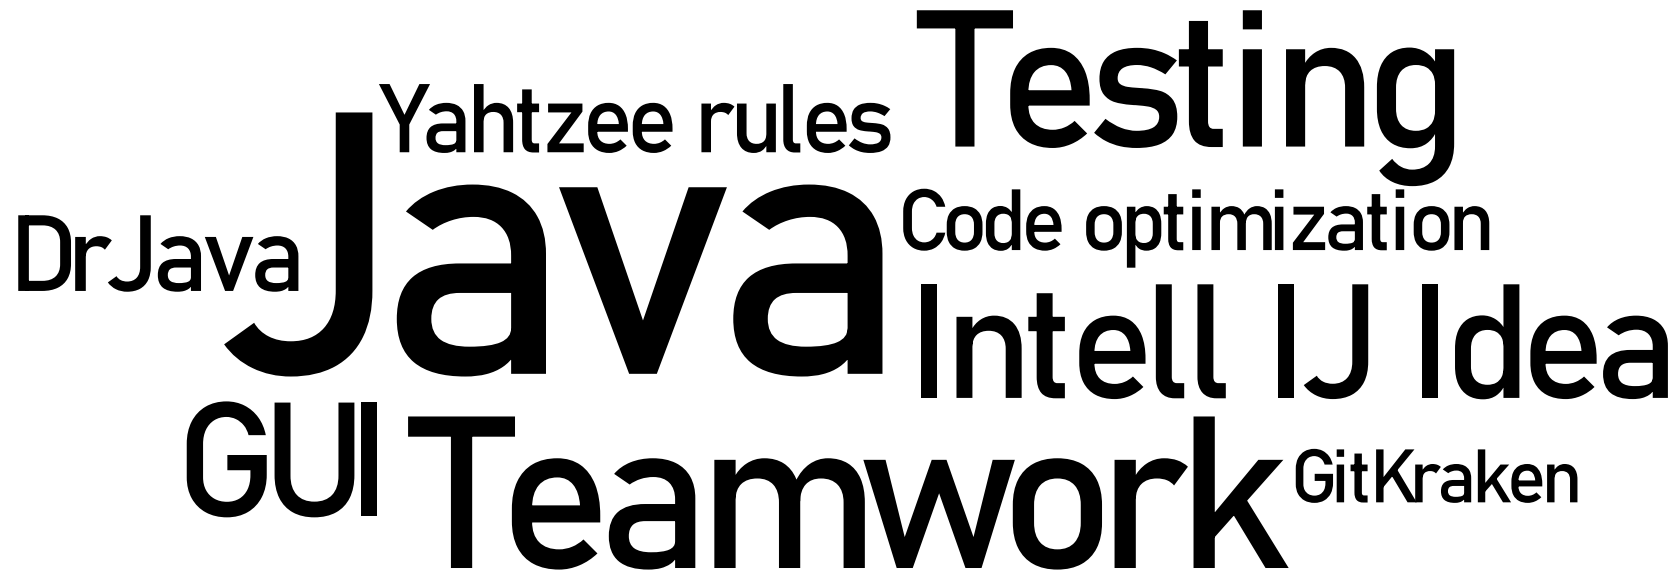

# INDEX

- I. What did we learn from this project ?
- II. Our game design
- III. What can we improve ?
- IV. Our yahtzee in figures

# I. What did we learn ?

Testing  
Yahtzee rules  
Code optimization  
DrJava  
Java  
Intell IJ Idea  
GUI  
Teamwork  
GitKraken

- 4 classes:
  - Dices
  - Rolls
  - Scoreboard
  - UserInterface

## II. Our game design

- 4 classes:
  - Dices
  - Rolls
  - Scoreboard
  - UserInterface

handles the random  
sampling

## II. Our game design

- 4 classes:
  - Dices
  - Rolls
  - Scoreboard
  - UserInterface

- private int value
- public Dice()

## II. Our game design

- 4 classes:
  - Dices
  - Rolls
  - Scoreboard
  - UserInterface

store and check the  
dice rolls

## II. Our game design

- 4 classes:
  - Dices
  - Rolls
  - Scoreboard
  - UserInterface

- private Dice [] roll

## II. Our game design

- 4 classes:
  - Dices
  - **Rolls**
  - Scoreboard
  - UserInterface

- `public void InitalRoll()`
- `public boolean IsThere_n_SameDice(int n)`
- `public boolean SmallStraight()`
- `public int min()`
- `public int RollSum()`

## II. Our game design

- 4 classes:
  - Dices
  - Rolls
  - Scoreboard**
  - UserInterface

display the scoreboard,  
save the game...

## II. Our game design

- 4 classes:
  - Dices
  - Rolls
  - Scoreboard
  - UserInterface

- private int highscore
- private int int\_nbPlayer
- private int [][] scoresheet
- private boolean [][] alreadyFill

## II. Our game design

- 4 classes:
  - Dices
  - Rolls
  - **Scoreboard**
  - UserInterface

- public Scoreboard()
- public void Score(Rolls roll, int playerNb)
- public void ReinitializeScoreSheet()
- public boolean End()
- public int TotalGame(int playerNb)
- public void findWinner(int int\_nbPlayer)
- public void saveGame(int playerTurn, int nbReroll, int[] myRoll)

## II. Our game design

- 4 classes:
  - Dices
  - Rolls
  - Scoreboard
  - UserInterface**

creates the game frame,  
launches the functions

## II. Our game design

# **III. What can we improve ?**

**Code organization**

**Visuals**

**New Features**

# IV. Our game in figures

**40** hours of work

**~100** games played

**+1500** lines of code

**+300** errors & warnings

**3** members

# THANK YOU

*« One who doesn't throw the dice  
can never expect to score a six. »*

-Navjot Sing Sidhu
